Natural Cat Litter

AUSTRALIAN OWNED & MADE
100% NATURAL CLAY
EFFECTIVE ODOUR CONTROL

PROUDLY SPONSORING LOCAL SHELTERS

ABOUT US

Established for over 30 years, our cat litter range are made from 100% Attapulgit Clay sourced from Western Australia.

Attapulgit's absorption is based on its naturally occurring structure. It is renowned for its effective odour-control and long lasting performance.

Our all-natural cat litter brands, **Chandler** and **Fussy Cat**, creates an outdoor feeling and experience for your indoor cat.

HOW TO USE

- ▶ Use a dry and clean litter tray large enough to accommodate your cat
- ▶ Fill the tray to a depth of 5cm to satisfy your cat's natural pawing and scratching instinct.
- ▶ Remove saturated portions and replace with fresh litter when necessary.

Our litter can be easily and safely disposed with household refuse or be used in your garden as an effective soil conditioner by digging into the ground

I only use Attapulgit clay based litter in the shelter and for my cats at home, as this is a natural and biodegradable product that encourages normal elimination behaviours and is thought to inhibit survival of pathogens

Dr Christine Cole
VETERINARIAN

*Just want to say what a wonderful product Chandler pet litter is!! My seven cats think it is great and, so does Mum!
Thank again.. at last I have found the ONE after years of trying lots of brands!*
